

Standard Data Elements for Contact Information (Draft)

The Contact Information Data Standard includes 1) Point of Contact, 2) Address, and 3) Communication information. These three modules contain the basic information needed for contacting an individual or organization. Some of the data elements that are included in this Contact Information Data Standard have been incorporated from the previously approved Facility Identification Data Standard and will be reused in the Contact Information Data Standard to ensure consistency and coordination among standards. This State/EPA data standard was approved by the Environmental Data Standards Council on January 8, 2003.

Point of Contact Data Elements			
Data Element Name	Data Element Definition	Notes	Format
